• V5 7210 WEIGHT VARIABLE

Originally, the data material was card weighted, i.e. some 00001500 cases occurred more than once. The duplicate cases have been removed (on the basis of a comparison of the entire case after conversion to character format), and a number has been inserted in the 'original' case indicating the number of times it occurred in the card weighted data file.

- 57A. The greater part of the trade is run by private enterprises, either limited liability companies or other private enterprises. Some of the trade enterprises, however, are run by the public, i.e. the State or the municipalities, for instance the State Railways, the power stations, the Postal Services, the telephone companies etc. I will now ask you to answer a number of questions with regard to how you think the private and public enterprises carry on trade? If you should compare private and public enterprises, which of them do you then think are most effective?
