- **V5 7211 WEIGHT VARIABLE**

Originally, the data material was card weighted, i.e. some 00001500 cases occurred more than once. The duplicate cases have been removed (on the basis of a comparison of the entire case after conversion to character format), and a number has been inserted in the 'original' case indicating the number of times it occurred in the card weighted data file.

• **V91 7211 WOMEN AND WORK**

- [Special questions in omni](#)
- 69A. At present there is talked much about the womens position in the society either as a homeworking housewife or out-working. If we imagine a married woman with small children up to the age of 10, what would you then find most natural: that she devotes herself to the work as homeworking housewife or that she is outworking, for instance half a day or working out all the day?

• **V92 7211 COMPETITION**

- [Special questions in omni](#)
- 69B. If men and women would get exactly the same possibilities of education and same wages for the same work and the women should not be dependent on the home, do you then believe that the woman could compete with the man on the labour market?
