International Social Survey Programme 2005: Work Orientation III (ISSP 2005)

Overview	
Identification	ZA4350
<p>Abstract Attitude to work. Work orientation and description of work contents. Topics: Preferred time budget for selected activities such as work, leisure time etc.; work orientation; importance of selected demands of a job (scale); preference for being self-employed or being an employee and working in a small or in a large firm and working in private business or civil service; advantages of the employee status (greater job security and lower impairment of the family life); importance of unions for job security and working conditions of employee; preference for full-time employment or part-time employment; preference for more work (and money) or for reduction in working hours; characterization of the respondent's work and work satisfaction (scale); physical exhaustion after work; frequency of dangerous and unhealthy job situations; possibility of flexible organisation of respondent's working time; personal opportunity to influence the organization of the workday or work process; difficulties in handling personal matters during working hours; frequency of the impairment of the family life by the work requirements and vice versa; usefulness of the abilities learned from past work experience for the present job; helpfulness of the present work experiences for looking for a new job; job training in past year to improve job skills; judgement on the relationship between management and employees (working atmosphere); description of personal commitment to work; identification with firm or organization (scale); expected difficulties in finding a job as good as the current one; self-assessment of one's own substitutability; likeliness of job search in the coming 12 months; worrying about one's own job security; accepted concessions to avoid own unemployment (accepting a job with new demands, accepting of a lower paid position, temporary employment and longer travel to get to work); existence of a side job; self-assessment of psychological characteristics of personality. Those who are not currently employed were asked: work for more than one year and time last paid job ended; main reason for the end of employment; interest in finding a paid job; expected difficulties in finding a new job; currently looking for a job; activities in the search for work; training activities to improve job skills in past year; main income source. Demography: sex; age; marital status; living together with a partner; education and duration of education; current employment status; occupation (ISCO88); employment in private or public sector; self-employment or employee; personal employees; time worked each week; superior function and span of control; company size; income; religious denomination; religiousness; union member; self-assessment of social class; self-assessment on a left-right continuum; party preference; size of household and composition; city size; region; original country of origin or ethnic group affiliation.</p>	

Scope & Coverage	
Topics	Society, Culture
Countries	
<p>Universe Research area: Australia, Bulgaria, Canada, Cyprus, Czech Republic, Denmark, Dominican Republic, Germany, Finland, Flanders (Belgium), France, Great Britain, Hungary, Ireland, Israel, Japan, Latvia, Mexico, New Zealand, Norway, Philippines, Portugal, Russia, Slovenia, South-Africa, South-Korea, Spain, Sweden, Switzerland, Taiwan, USA</p>

Variables Description

Dataset contains 303 variable(s)

File : ZA4350			
# V1: ZA Study Number			
Information		[Type= discrete] [Format=numeric] [Range= 4350-4350] [Missing=*]	
Statistics [NW/ W]		[Valid=43440 /-] [Invalid=0 /-]	
Literal question		ZA Study Number 4350 Zentralarchiv Study Number 'ZA4350'	
Value	Label	Cases	Percentage
4350		43440	100.0%
Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.			
# V2: Respondent ID Number			
Information		[Type= discrete] [Format=numeric] [Range= 1000001-43001958] [Missing=*]	
Statistics [NW/ W]		[Valid=43440 /-] [Invalid=0 /-]	
Literal question		Respondent ID Number Respondent Number This uniquely identifies each respondent. The first two digits are identical with the country code, the next six digits contain the original identification numbers.	
# V3: Country			
Information		[Type= discrete] [Format=numeric] [Range= 1-43] [Missing=*]	
Statistics [NW/ W]		[Valid=43440 /-] [Invalid=0 /-]	
Literal question		Country 1 Australia (AU) 2 Germany-West (DE-W) 3 Germany-East (DE-E) 4 Great Britain (GB) 6 United States (US) 8 Hungary (HU) 10 Ireland (IE) 12 Norway (NO) 13 Sweden (SE) 14 Czech Republic (CZ) 15 Slovenia (SI) 17 Bulgaria (BG) 18 Russia (RU) 19 New Zealand (NZ) 20 Canada (CA) 21 Philippines (PH) 22 Israel Jewish (IL-J) 23 Israel Arab (IL-A) 24 Japan (JP) 25 Spain (ES) 26 Latvia (LV) 28 France (FR) 29 Cyprus (CY) 30 Portugal (PT) 32 Denmark (DK) 33 Switzerland (CH) 34 Flanders (FLA) 37 Finland (FI) 38 Mexico (MX) 39 Taiwan (TW) 40 South Africa (ZA) 41 South Korea (KR) 43 Dominican Republic (DO)

# CH_INC: Family income: Switzerland			
Information		[Type= discrete] [Format=numeric] [Range= 500-999990] [Missing=*/0]	
Statistics [NW/ W]		[Valid=43242 /-] [Invalid=198 /-]	
Literal question		CH_INC - Switzerland: And, could you say how much is the total of the monthly net income of all household members, including you, i.e. the sum that remains after deduction of the contributions of Social Security (AVS etc) but before deduction of the taxes? i.e. the sum of all the incomes of occupation, annuity, pension, unemployment benefit, grant or other supports (but not incomes of capital). The monthly household (incl. R) income in Swiss Francs (CHF) was combined from a divided source variable. The first part of the question asks in a direct form for the income and the second (only asked if R is not willing to respond to the first part) asks if R would at least be willing to give an approximate indication of the income. Monthly household income from all sources (pensions annuities, umemployment benefits, grants, other supports). Family income is not asked if the person lives alone in hh, therefore the value of INCOME is set to the value of RINCOME (R's income). 500 500 CHF lowest income 100000 100.000 CHF highest income 999990 Not available: other countries 999997 Refused 999998 Don't know 999999 No answer
